experience. performance.

There are many applications for paper tubes, from toilet paper rolls to cores for large rolls of paper or textile, and each has its own requirements. We offer a variety of adhesives for core-winding and inner- and/or outer-ply application.

	Product	Type	Colour	Solid Content* (%)	Viscosity** @20°C (mPa.s)	Application	Description
Core Production	Enziflex K 6522	PVAc	White	30	4000	Roller	Homopolymer-based adhesive for the production of square drums or cores.
Inner / Outer Ply	Enziflex K 6444	PVAc	White	50	4300	Roller	Homopolymer-based adhesive designed for inner and outer plies application, but can be used for production of the full core. Fast setting time.
Tail Tie	Latyl WPN	Cellulose	Transparent	NA	950	Nozzle	Cellulose-based tail tie adhesive for (e.g.) toilet paper / kitchen paper.

* Dry solids measured according to ISO 3251, for detailed information refer to the TDS.

** Viscosity measured according to ISO 2555 ("Brookfield"), for detailed information refer to the TDS.
